WORK EXPERIENCES

Python developer

Anantha cybertech Pvt Ltd | currently

Python developer

WorldSoft | 1 July 2021 to 30 July 2022

- My work was mainly targeted to understand the frontend data requirement and create restful api's to full fill the data which is required,debugging the code,understand the client requirements.
- Used MVT architecture in developing the web application within Django.
- Implemented and modified various SQL queries with the help of ORM in Django.
- Used Ajax to modify small portions of the web pages by sending a request to the server avoiding the need of reloading the entire web page.
- Managed code versioning with git/github and deployment to staging and production servers.
- Worked with postgresql/sqlite3 with Django ORM.
